

# PRESENTING E3 WRAP 2100

SEMI-AUTOMATIC WRAPPING MACHINE

**Simple**, yet **effective** design. Engineered to give your workers a safe, ergonomic, economical, and easy wrapping solution. The design takes up less little space on the warehouse. It mounts on the wall!

The photocell detects the height of the pallet and the smart motor also stops automatically when it's obstructed.

It's the easiest machine of its kinds to operate, the controls are minimalistic and simple.

SKYPE: [easy.packaging](https://www.skype.com/people/easy.packaging)
