

STEP TL-LY8-U2 Full Automatic

Paper car air freshener knotting machine (PLC control)

The STEP TL-LY8-U2 is an advanced hangtag-stringing machine designed specifically for stringing paper car air fresheners. It integrates several functions such as tag loading, hole punching, stringing, knotting, and counting in one seamless operation. This version distinguishes itself from its predecessor (TL-LY8-U) by adding the automatic hole-punching capability, making it more versatile in handling various tag shapes. The machine operates with a speed of 3600-4000 pieces per hour and features a cold cutting mechanism.

Features:

- Automated Operations
- High Speed
- Versatile Tag Processing
- Adjustable Stringing
- User-Friendly Controls

SPECIFICATIONS	
Speed	3600-4000
Tag Size Range	Minimum 20 x 35 mm to maximum 90 x 150 mm
Power Supply	220V, single phase, 50/60 Hz
Power Consumption	0.75 kW
Weight	416 kg
STEP Item No.	41342020
