

STEP Scissor lift HW2001 Series

STEP HW 2001 Stationary Electric Lift Table, can be used in above-floor or in-floor pit applications. Heavy duty cylinders with drainage system and check valve to stop the lift table lowering in case of hose burst, a device that employs a scissors mechanism to raise or lower goods and/or persons. Typically lift tables are used to raise large, heavy loads through relatively small distances. Common applications include pallet handling, vehicle loading and work positioning.

Features:

- Upper platform lifted with aluminum safety bar preventing descent on contact with obstructions.
- Low-tension(24V) control box with up-down buttons.
- Internal power pack equipped with relief valve against overloading and compensated flow valve for controlled lowering speed.
- Safety clearance between scissors to prevent trapping during operation.
- Self-lubricating bushings on pivot points.
- Removable lifting eye to facilitate handling and lift table installation.
- High quality AC power packs are made in Europe.

Optional Accessories:

- Trolley Frame
- Loading Flap
- Recessed Circular Turntable
- Pallet Truck Frame
- Side Barrier Rails
- Raise and Tilt Platform
- Roller Bed
- Protection Curtain
