

STEP UMX250D Automatic Air Fresheners Packaging Machine

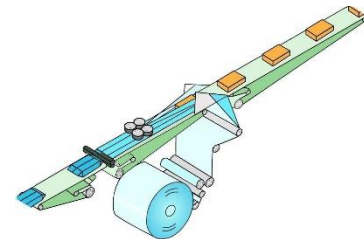

This machine adopts PLC programmable intellectualized User-Interface Control, hence ensuring steady performance with a lower fault rate and ease of operation. Additionally, the full set of steady electrical systems can keep the machine in a long working state.

The packing of the product can be controlled by the color label on the film or the bag length set on the machine. The photoelectric sensor can accurately detect the position of the color label on the film and can be adjusted by the compensation dosage. This enables the automatic packing of products with Automatic bag Making - Filling - Sealing - Cutting - Finished Product Conveying.

Features

- Automated Packaging
- Versatile Packaging Options
- Advanced Technology
- User-Friendly Interface
- Durable Construction

SPECIFICATIONS	
Model	STEP UMX250D Automatic Air Fresheners Packaging Machine
Packaging type	Three Seals Type H (back sealing)
Packing Film	OPP,PE,PVC,PET/PE,OPP/CPP,Paper/PE,PE T/aluminum film/PE etc
Max. film width	250mm
Packaging speed	20-180 bags/min
Packaging film thickness	0.03-0.06mm
Packaging size of bag	L:50-200mm W:25-100mm H:≤35mm
Power requirement	220V/60HZ 3 phase
Total Power	2.4KW
Overall dimensions	L*W*H 4200mm×600mm×1400mm
Full weight	650KG
Item Number	43860250
