

STEP GPD4872

Gummed Paper Dispenser

Specifications	
Tape Width	48 to 77 mm
Speed	60m/min
Modes	Manual, Line Shape, Cross Shape, H-shape
Water Container Capacity	1 liter
Rated Power	70W
Item number	42216540

Description:

The STEP GPD4872 Gummed Paper Dispenser is engineered for precision and efficiency in packaging with water-activated, plain or reinforced gummed paper tape. This high-performance dispenser quickly moistens, cuts, and dispenses tape at speeds up to 60 meters per minute, making it ideal for fast-paced environments. Designed for industrial use, it features multiple programmable modes to meet varied packaging needs.

Features:

- **Wide Tape Compatibility:** Handles tape widths from 48 to 77 mm, suitable for plain and reinforced gummed paper.
- **Programmable Modes:** Offers Manual, Line Shape, Cross Shape, and H-shape for versatile application.
- **High Dispensing Speed:** Operates at up to 60m/min, optimizing productivity.
- **Quick-Heating Water Container:** 1-liter container ensures rapid adhesive activation, minimizing downtime.
- **Durable, Compact Design:** Industrial-grade materials ensure longevity in demanding packaging environments.

Product Benefits:

- **Enhanced Efficiency:** High-speed operation significantly reduces packaging time, boosting productivity.
- **Eco-Friendly Sealing:** Utilizes water-activated tape, providing an environmentally sustainable alternative to plastic.
- **Customizable Dispensing Options:** Versatile modes and adjustable tape lengths make it adaptable to varied packaging needs.

Applications:

Ideal for e-commerce, warehousing, and logistics, the STEP GPD4872 enhances packaging efficiency with reliable and eco-friendly sealing solutions, meeting the demands of industrial settings.
