

STEP Band 1100 Banding Machine 30MM

Description

The STEP Band 1100 is a compact and efficient desktop banding machine designed for fast, precise, and reliable bundling. Built in Japan, it supports both paper and film tape with 30mm width, ideal for a variety of packaging applications. This machine delivers clean, heat-sealed bands and is suitable for A3-length products with a high throughput of up to 26 cycles per minute.

Key Features

- Uses 30mm banding tape (paper or film)
- Compact desktop machine with Japanese quality
- Heat sealing for clean and secure bundling
- Fast operation up to 26 cycles/min
- Adjustable to fit various product sizes

Benefits

- High Productivity – Speeds up bundling process
- Space Efficient – Fits on standard worktables
- Multi-Material Support – Works with paper and film
- Strong Seals – Heat sealing ensures tight bundles
- User-Friendly – Simple operation and maintenance

Applications

- Document bundling and mailers
- Print shops and paper packaging
- Food and retail packaging
- Logistics and supply chain bundling
- Lightweight industrial use

Specifications	
Banding Tape Width	30 mm
Max Product Width	420 mm (A3 lengthwise)
Max Product Height	210 mm
Banding Speed	Up to 26 bandings per minute
Sealing Method	Heat seal
Item Number	32201100
